ARTWORK AREA
This is the visual area where your artwork will be displayed and trimmed to.

SAFE AREA
It is recommended to keep all text or critical items inside this line. While it won’t get cut off it will be to close to trimmed edge.

BLEED AREA
This area is NOT visible, but will be slide in behind metal a-frame.

We suggest keeping any images etc extending into this area so that the design transitions nicely into the metal a-frame.
Avoid text in these areas as they will not be seen.

File Submission Details
Insure any images are at minimum 100DPI (300DPI is ideal)
All Images and Text Should be converted to outlines / curves
Files should be submitted as PDF Files INCLUDING bleed.
